- Software Engineering I & II
  - Computer Org. and Assembly
  - Systems Programming
  - Algorithms and Data Structures
  - Computer Science I & II
  - Operating Systems
- 

### **PROJECTS**

**SOFTWARE ENGINEERING**, UTRGV Edinburg, TX

**Fall 2018**

- Worked individually to develop a user interface website in the Ruby language using Visual Studio Code editor. The webpage allows users sign up or log in to view posted videos and submit payments and administrators to post videos. I used Sinatra library to create the webpage, Stripe library to set up a payments method, and DataMapper database to store emails, passwords, and posted videos.

**JAVA FINAL PROJECT**, UTRGV Edinburg, TX

**Spring 2018**

- Worked in a team of 3 students to develop a 2D game in the Java language using Android Studio editor and Lib GDX game engine. The game consisted of avoiding moving obstacles while tracking and sorting the scores and names of players. We used a SQLite database to store scores, names, and times of the game users.
- 

### **EXPERIENCE**

**WAL-MART**, San Benito, TX

**March 2015 – October 2015**

Sales Associate

- Assisted customers in finding and purchasing merchandise.
- Maintained a clean and full stocked area.

**VALLEY FEDERAL CREDIT UNION**, Harlingen, TX

**August 2013 – May 2014**

Bank Teller

- Responsible for opening new accounts.
- Handled monetary transactions for bank members.
- Responsible for revising money transactions and its storage in the vault.
